See 2. Hear 5.

We are a power duo. A whirlwind of sound and energy. An explosion of psychedelic blues and rock. Jamie plays guitar and sings while Danielle plays drums and keyboard simultaneously.

We met during our freshman year at college in 1996 and have been together ever since. We started our band on a whim for a Halloween party and played our first show in our basement in October 2005. That winter, our first recorded song found its way onto an in-store CD compilation for retailer Anthropologie.

Last year, we were voted **2008 Best Unsigned Band** by the readers of *Philadelphia STYLE Magazine*.

We are currently celebrating the release of our debut album, *Chatterbox*. We are releasing the album digitally and in limited edition packaging that we designed, assembled and individually numbered. Songs from the album have been featured on radio stations 88.5FM WXPB (daily rotation), 93.3FM WMMR, 94.1FM WYSP and Radio 104.5FM.

Origivation Magazine says “***Chatterbox* is a great fun listen from beginning to end... the rip roaring guitar playing is a standout...**”
